1 Copayments marked with this footnote do not accrue to the calendar-year copayment maximum. Copayments and charges for services not accruing to the member's calendar-year copayment maximum continue to be the member's responsibility after the calendar-year copayment maximum is reached. Please refer to the Evidence of Coverage and the Plan Contract for exact terms and conditions of coverage.

2 To use this option, members must select a personal physician who is affiliated with a medical group or IPA that is an Access+ provider group, which offers the Access+ Specialist feature. Members should then select a specialist within that medical group or IPA. Access+ Specialist visits for mental health services must be provided by a MHSA network participating provider.

3 Participating ambulatory surgery centers may not be available in all areas. Regardless of their availability, you can obtain outpatient surgery services from a hospital or an ambulatory surgery center affiliated with a hospital, with payment according to your health plan's hospital services benefits.

4 For Plans with a facility deductible amount, services with a day or visit limit accrue to the calendar-year day or visit limit maximum regardless of whether the plan deductible has been met.

5 Skilled nursing services are limited to 100 preauthorized days during a calendar year except when received through a hospice program provided by a participating hospice agency. This 100 preauthorized day maximum on skilled nursing services is a combined maximum between SNF in a hospital unit and skilled nursing facilities.

- 6 Mental health services are accessed through Blue Shield's Mental Health Service Administrator (MHSA) using Blue Shield's MHSA participating providers. For a listing of severe mental illnesses, including serious emotional disturbances of a child, and other benefit details, please refer to the Evidence of Coverage and Plan Contract.
- 7 Inpatient services for acute detoxification are covered under the medical benefit; see hospitalization services for benefit details. Services for medical acute detoxification are accessed through Blue Shield using Blue Shield HMO providers.
- 8 Includes insertion of IUD as well as injectable contraceptives for women.
- 9 Physician services copayment in the office or outpatient hospital facility only. If procedure is performed in a hospital facility setting, additional hospital services copayment may apply.
- 10 **Optional substance abuse treatment benefits are available. If your employer purchased these benefits, a description of the benefit is attached hereto as "Additional Substance Abuse Treatment Benefits."**

Plan designs may be modified to ensure compliance with state and federal requirements.
