Important Questions	Answers	Why this Matters:
What is the overall <u>deductible</u> ?	\$1,000 per individual / \$2,000 per family Does not apply to preventive care and prescription drugs.	You must pay all the costs up to the <u>deductible</u> amount before this <u>plan</u> begins to pay for covered services you use. Check your policy or <u>plan</u> document to see when the <u>deductible</u> starts over (usually, but not always, January 1st). See the chart starting on page 2 for how much you pay for covered services after you meet the <u>deductible</u> .
Are there other <u>deductibles</u> for specific services?	Yes, prescription drug deductible: \$200 per individual / \$500 per family. Does not apply to generic drugs.	You don't have to meet <u>deductibles</u> for specific services, but see the chart starting on page 2 for other costs for services this <u>plan</u> covers.
Is there an <u>out-of-</u> <u>pocket limit</u> on my expenses?	Yes. \$4,000 per individual / \$8,000 per family for medical only	The <u>out-of-pocket limit</u> is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you <u>plan</u> for health care expenses.
What is not included in the <u>out-of-pocket</u> <u>limit</u> ?	<u>Premiums</u> , <u>balance-billed</u> charges, some <u>copayments</u> , and health care this <u>plan</u> doesn't cover.	Even though you pay these expenses, they don't count toward the <u>out-of-pocket</u> <u>limit</u> .
Is there an overall annual limit on what the plan pays?	No.	The chart starting on page 2 describes any limits on what the plan will pay for specific covered services, such as office visits.
Does this plan use a <u>network</u> of <u>providers</u> ?	Yes. For a list of preferred providers , see www.blueshieldca.com/sisc or call 1-800-642-6155	If you use an <u>in-network</u> doctor or other health care <u>provider</u> , this <u>plan</u> will pay some or all of the costs of covered services. Be aware, your <u>in-network</u> doctor or hospital may use an <u>out-of-network provider</u> for some services. <u>Plans</u> use the term <u>in-network</u> , <u>preferred</u> , or participating for <u>providers</u> in their <u>network</u> . See the chart starting on page 2 for how this <u>plan</u> pays different kinds of <u>providers</u> .
Do I need a referral to see a <u>specialist</u> ?	No.	You can see the <u>specialist</u> you choose without permission from this <u>plan</u> .
Are there services this <u>plan</u> doesn't cover?	Yes.	Some of the services this <u>plan</u> doesn't cover are listed on page 6. See your policy or <u>plan</u> document for additional information about <u>excluded services</u> .

Blue Shield of California: 80-K \$30; Rx 15-50/200 Summary of Benefits and Coverage: What this Plan Covers & What it Costs

- <u>Coinsurance</u> is *your* share of the costs of a covered service, calculated as a percent of the <u>allowed amount</u> for the service. For example, if the <u>plan's allowed amount</u> for an overnight hospital stay is \$1,000, your <u>coinsurance</u> payment of 20% would be \$200. This may change if you haven't met your <u>deductible</u>.
- The amount the plan pays for covered services is based on the <u>allowed amount</u>. If an <u>out-of-network provider</u> charges more than the <u>allowed amount</u>, you may have to pay the difference. For example, if an <u>out-of-network</u> hospital charges \$1,500 for an overnight stay and the <u>allowed amount</u> is \$1,000, you may have to pay the \$500 difference. (This is called <u>balance billing</u>.)
- This <u>plan</u> may encourage you to use <u>preferred providers</u> by charging you lower <u>deductibles</u>, <u>copayments</u> and <u>coinsurance</u> amounts.

About these Coverage Examples:

These examples show how this **plan** might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different **plans**.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this **plan**. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don't include **premiums**.
- Sample care costs are based on national averages supplied by the U.S.
 Department of Health and Human Services, and aren't specific to a particular geographic area or health <u>plan</u>.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this <u>plan</u>.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from <u>in-</u> <u>network providers</u>. If the patient had received care from <u>out-of-network</u> <u>providers</u>, costs would have been higher.
- <u>**Plan**</u> and patient payments are based on a single person enrolled on the <u>**plan**</u> or policy.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how <u>deductibles</u>, <u>copayments</u>, and <u>coinsurance</u> can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

No. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

No. Coverage Examples are <u>not</u> cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your <u>providers</u> charge, and the reimbursement your health <u>plan</u> allows.

Can I use Coverage Examples to compare plans?

✓ Yes. When you look at the Summary of Benefits and Coverage for other <u>plans</u>, you'll find the same Coverage Examples. When you compare <u>plans</u>, check the "Patient Pays" box in each example. The smaller that number, the more coverage the <u>plan</u> provides.

Are there other costs I should consider when comparing plans?

 ✓ Yes. An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-ofpocket costs, such as <u>copayments</u>, <u>deductibles</u>, and <u>coinsurance</u>. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
