

Recognizing depression

Depression is a serious health condition, which isn't the same as occasionally feeling sad or discouraged. It lasts for long periods of time, and can affect the way you think and behave. Changes in sleep, appetite, energy, and focus are all common signs.

If you or a loved one struggles with depression, your Employee Assistance Program (EAP) offers a wide range of support and resources available at no extra cost, including:

- Screenings to help diagnose depression.
- Information on treating depression.
- Free confidential counseling, in-person or online.
- Referrals to support groups and treatment.
- Tips for helping a loved one who is experiencing depression.

These resources can help you recognize depression and find the treatment and support that's right for you:

Professional counseling

Connect with a licensed professional counselor for confidential online or in-person sessions.
